

PAYKEY™ benefits everyone involved in the vending process – vendors, employees, and their employers!

Since PAYKEY™'s introduction in early 2002, the response from customers and vendors alike has been overwhelming. The PAYKEY™ system has been installed all over the country. Vendors in California, South Carolina, New York, Texas, Nevada, Washington, and Tennessee have found PAYKEY™ inexpensive and easy to install, and it provides them with a competitive advantage.

PAYKEY™ has the unique advantage over other cashless payment systems by giving customers the ability to recharge their Paykey™ at the vending machine. Employees enjoy carrying and recharging their Paykey™ more than cash and coins to make purchases!

Employees at Faurecia, an automotive products manufacturer in Fountain Inn, SC, have only positive things to say about PAYKEY™ since they transitioned to completely cashless in March 2004. Ranson Anderson, an employee of Faurecia, stated, "It seems like I'm spending more money, because it's more convenient. Plus, I don't have to worry about dropping my quarters

Valerie Byrd

under the machine." Another employee, Valerie Byrd, enjoys the convenience and reliability by putting \$5 on her key every Monday morning to use all week. Others have commented on how easy the Paykey™ is to use and how worry-free their lunch breaks have become since they don't have to worry about loose change or large or wrinkled bills.

Faurecia is just one location which proves that, given time, employees will accept and even welcome a completely cashless environment! And it's not only the employees who value the PAYKEY™ cashless vending system.

Donna Gettys

Mrs. Donna Gettys, the District Manager for Atlas Food Systems and Services, Inc. in Greenville, SC, confirms that "PAYKEY™ is an easy system for me to implement with my vending attendants. We have certainly saved money by using PAYKEY™ due to less money handling and fewer service calls and/or money acceptance problems.

Plus, we saved a few thousand dollars by removing a bill changer, coin mechs and validators from our machines!"

Neile Bramlette, the Human Resources Director for Faurecia, stated, "PAYKEY™ is a value-added service to my employees. I have

received many favorable comments about PAYKEY™, and my employees never complain that the machine will not take their money."

Neile Bramlette

Reliability ... Simplicity ... Convenience
PAYKEY™ is the future of vending!
